

So I've taken advantage of the opportunity as I will be studying in South Korea in the second semester of this academic year. Therefore, of course, my English needs to be good. Luckily that's the case, partially thanks to you and the entire TTO program. I think you get the message, TTO is extremely useful! 😊 Due to the fact that I don't live in Holland anymore, I don't think I would be able to attend the reunion. However, I hope you can use my story to inspire others. Simply said, sometimes, by choosing to step out of your comfort zone, you can achieve things that you would've never imagined to become reality. You could say that I'm talking from experience, because I'm living the dream right now 🙏
